+628116260205 | bryannsimamora@gmail.com | <http://www.linkedin.com/in/febryantosimamora>

Industrial Engineering Fresh Graduate, Sumatra Institute of Technology with an interest in continuous improvement, manufacturing, and supply chain management. Experienced in project coordination, quality control using Six Sigma methods, and business process analysis. Accustomed to working in a structured team environment and solving problems through analytical and data-driven approaches. Possesses leadership experience in coordinating teams and managing activities amidst high-pressure work environments, with strong communication skills and high adaptability.

EDUCATION

Institut Teknologi Sumatera - South Lampung, Indonesia

Aug 2022 – Jun 2026

Bachelor of Industrial Engineering, 3.44/4.00

- Author of a scientific article in a SINTA 4-indexed journal titled "Processing Industrial Tofu Wastewater into Nata de Soya to Mitigate Potential Environmental Pollution," published in MITRA: Journal of Community Empowerment (2025).
- Final Project Title : Quality Control of Paving Blocks Using the Six Sigma Method with the DMAIC Approach and the Seven Tools Method (Case Study: CV Pulau Damar).

WORK EXPERIENCE

PT PP London Sumatra Indonesia Tbk – Deli Serdang, Indonesia

Jul 2025 – Aug 2025

Maintenance Planner Intern

- Analyzed process issues and developed preventive maintenance proposals by adjusting schedules to reduce machine downtime frequency by up to 10%.
- Identified and mapped preventive maintenance processes for press machines using the SIPOC method across 5 process stages to understand workflows and identify potential causes of downtime.
- Conducted on-site observations and participated in 3 press machine maintenance activities (inspection, cleaning, and component disassembly).

ITERA Basic Physics Laboratory – South Lampung, Indonesia

Aug 2023 – Dec 2025

Lab Assistant

- Guided over 100 Basic Physics lab students through the delivery of more than 5 lab modules using a theoretical and experimental approach.
- Conducting pre-tests, providing guidance on the use of lab equipment, and systematically evaluating over 100 student lab reports.
- Managed student administration and final grading using Microsoft Word and Excel, and ensured data accuracy and 100% compliance with laboratory safety standards.

ITERA Student Affairs Directorate – South Lampung, Indonesia

Sep 2025 – Dec 2025

Capstone Design

- Developed a Laravel and MySQL based website system for managing career training registrations with 6 key features, capable of handling over 100 user records in a structured manner.
 - Conducted business process analysis using the SOI approach (BPMN, IPO, and SIPOC) as well as the RCA and CATWOE methods, successfully identifying 5 major issues and reducing operational costs by 40% compared to the manual system.
- Conducted system testing using usability testing across 10+ test scenarios, achieving a 95% functional success rate, and performed an economic feasibility analysis using the Cost Benefit Ratio (CBR).

ORGANIZATIONAL AND LEADERSHIP EXPERIENCE

Helicopter View Industrial Engineering (HVi-IE) - South Lampung, Indonesia

Jul 2024 – Dec 2024

Competition Division Coordinator

- Led and coordinated 5 subdivisions and 25+ staff members and collaborated with campus stakeholders to design and organize 5 competitions using Canva, Google Sheets, and Google Forms, successfully increasing participant numbers by 60%.
- Developed competition timelines and SOPs over 6+ months using Microsoft Excel and Google Sheets for various initiatives involving 200+ participants from various campuses.
- Designed and managed competition budget plans (RAB) with an efficient budget realization rate of 90%.

Himpunan Mahasiswa Teknik Industri ITERA (HMTI ITERA) - South Lampung, Indonesia

May 2024 – Feb 2025

Academic and Professional Division Staff

- Collaborated with the team to design and develop 7+ work programs over an 8+ month period using various digital tools, successfully increasing program participation by over 70%.
- Designed and organized the “Upgrading HMTI” program for over 200 HMTI members, covering Industrial Engineering fundamentals, preparation for Industrial Training (KP), and Community Service Learning (KKN).
- Mentored over 20 students in preparing reports for the Student Creativity Program (PKM) to enhance their academic writing skills and proposal development.

KKN Tematik Desa Purwodadi Dalam - South Lampung, Indonesia

Jul 2024 – Feb 2025

Team Coordinator

- Led and coordinated over 20 team members from 3 different study programs and 2 faculties in developing a structured work plan and managing program implementation during the KKN period.
- Designed and implemented 7+ work programs with 70% active participation from the local community.
- Successfully established partnerships with PT Bukit Asam and the Golden Waste Bank Community, which contributed funding and program support amounting to 30% of the total activity requirements.

ITERA Basic Physics Laboratory - South Lampung, Indonesia

Aug 2025 – Dec 2025

Coordinator Assistant

- Coordinated and supervised over 200 lab assistants to ensure compliance with SOPs during lab sessions.
- Coordinated the conduct of lab sessions for over 800 students and collaborated with faculty and lab technicians in monitoring over 20 pieces of laboratory equipment

SKILLS AND ACHIEVEMENTS

- **Technical Skills:** Continuous Improvement (Lean Manufacturing, Six Sigma, 7 QC Tools) | Supply Chain Management (Demand Forecasting) | Inventory Management (ABC Analysis, Pareto Charts) | Business Process Analysis (BPMN, SIPOC Diagrams) | Google Workspace (Drive, Sheets, Docs, Forms) | Microsoft Office (Excel, Word, PowerPoint, Visio) | Project Management (Canva, Notion, Draw.io)
- **Interpersonal Skills:** Critical Thinking | Problem Solving | Decision Making | Leadership | Teamwork | Adaptability.
- **Achievements:** Microsoft Excel Expert Certification – Karimex (2026) | Recipient of the PT Pamerindo Scholarship 2025 | Best Scientific Article at the Polibatam Logistics Competition 2025 | 3rd Place Winner of the HVI IE Business Plan Competition 2024 | Selected for the 2024 PKM Internal Proposal Selection (ITERA) with the title: SENROVA: IoT-Based Wheelchair | Attachment: https://bit.ly/SupportingDocuments_FebryantoSimamora
