<https://www.linkedin.com/in/elsaelisayohanasanturi/>

Informatics Engineering Fresh Graduate, Sumatra Institute of Technology and a Pertamina Sobat Bumi Scholarship recipient, with interests in Artificial Intelligence, Data Analytics, and Business Process Improvement. Experienced in AI engineering internship, teaching assistance, and leading academic and organizational initiatives. Skilled in data analysis, machine learning, SQL, Python, and stakeholder collaboration to develop data-driven solutions and improve operational efficiency. Strong analytical thinking, communication, leadership, and problem-solving abilities, with proven experience working in cross-functional teams and adapting to dynamic environments

## EDUCATION

### Bachelor of Informatics Engineering | Institut Teknologi Sumatera

Aug 2022 - May 2026

Lampung, Indonesia

- GPA: 3.63 / 4.00
- Final Project Title: Self-Harm Meme Identification Using an Intermediate Fusion Model with Multimodal CLIP and ELECTRA (2026)
- Author of a scientific article in a SINTA 6-indexed journal titled "Digital Transformation of Integrated Health Post (Posyandu) Services: Development of a Web-Based Information System in Marga Agung Village," published in PADIMAS: Jurnal Pengabdian kepada Masyarakat (2025). DOI: [10.35957/padimas.v5i1.12206](https://doi.org/10.35957/padimas.v5i1.12206)

## WORK EXPERIENCE

### PT Pertamina Hulu Rokan - AI Engineer Intern

Jun 2025 - Jul 2025

Pekanbaru, Indonesia

- Evaluated enterprise document search solutions to improve information accessibility, operational efficiency, and knowledge management for business users
- Collaborated with technical teams and business stakeholders to translate operational challenges into practical AI-enabled solutions aligned with user requirements
- Analyzed system performance, identified improvement opportunities, and recommended solutions to enhance operational efficiency and support business decision-making
- Presented AI evaluation findings and improvement recommendations to technical mentors and project stakeholders to support solution development

### UPA TIK ITERA - Teaching Assistant

Aug 2023 - Jun 2026

Lampung, Indonesia

- Assisted lecturers in delivering laboratory sessions for 3 undergraduate courses: Operating Systems, Introduction to Computing and Software, and Interaction Design, supporting 60+ students per course
- Facilitated 24 hours of laboratory sessions for Operating Systems and Introduction to Computing and Software, providing technical guidance and assisting students during practical activities
- Mentored 12 student project teams in the Interaction Design course through 36 project consultation sessions, providing feedback and recommendations to improve UI/UX design quality and project outcomes
- Evaluated programming assignments and UI/UX design projects, delivering constructive feedback to strengthen students' technical competencies, analytical thinking, and problem-solving skills

## LEADERSHIP & ORGANIZATIONS

### HMIF ITERA - Head of Academic & Scholarship Division

Jan 2025 – Dec 2025

Lampung, Indonesia

- Led a team of 8 members to execute 4 academic and scholarship programs, delivered a scholarship-sharing session for over 70 students, and managed mentoring initiatives that contributed to 2 students receiving the Pertamina Sobat Bumi Scholarship

### Sobat Bumi Lampung - Secretary of Desa Energi Berdikari

Nov 2024 - Dec 2025

Lampung, Indonesia

- Coordinated project schedules, documentation, and administrative workflows for a renewable energy initiative with IDR 100 million in funding, supporting the successful implementation of a 2.2 kWp solar power (PLTS) system
- Collaborated with the ITERA Solar Power Unit and external stakeholders, including village officials and local communities, to facilitate project planning, communication, and execution
- Prepared meeting minutes, maintained project documentation, and monitored implementation timelines to ensure project activities remained organized and on schedule

- Coordinated 2 concurrent IT projects by managing project timelines, tracking task progress using Kanban methodology, and facilitating communication among cross-functional teams to support on-time project execution
- Maintained project documentation, meeting minutes, and progress reports for 2 ongoing projects, ensuring effective coordination and alignment across project teams

SKILLS AND ACHIEVEMENTS

---

- **Technical Skills:** Business Process Improvement | Project Coordination | Stakeholder Management | Operational Analysis | Business Process Documentation | Project Documentation | Python | SQL | Microsoft Excel | Power BI | Data Analysis | Data Visualization | Machine Learning | Deep Learning | Computer Vision | Natural Language Processing | Model Training | Microsoft Office | Git | GitHub | Linux | Figma | Notion | Trello
- **Interpersonal Skills:** Analytical Thinking | Problem Solving | Communication | Leadership | Teamwork | Adaptability | Time Management
- **Achievements:** Pertamina Sobat Bumi Scholarship Recipient - Pertamina Foundation (2024) | 2nd Place Winner - UI/UX Competition Point Project 2.0 (2024) | Guest Speaker - Scholarship Sharing Session, HMIF ITERA (2024) | AWS re/Start Graduate - Orbit Future Academy (2026)
