

SAKTI MUJAHID IMANI

Project Management Assistant Intern Candidate | Informatics Student | DBS Foundation Coding Camp Cohort

Jakarta Timur, Indonesia | 081298056550 | saktimujahid.9b@gmail.com | [linkedin.com/in/saktimujahid](https://www.linkedin.com/in/saktimujahid)

PROFESSIONAL SUMMARY

8th-semester Informatics Engineering student at Institut Teknologi Sumatera with experience in project-based learning, academic activity coordination, evaluation recap, reporting, and documentation. Selected cohort of Coding Camp 2025 powered by DBS Foundation with exposure to machine learning, data processing, and collaborative technology projects. Strong in communication, time management, teamwork, problem solving, Microsoft Office, and administrative support. Interested in supporting project scheduling, progress tracking, scope/time monitoring, project reporting, and documentation as a Project Management Assistant Intern.

EDUCATION

Institut Teknologi Sumatera (ITERA) | Bachelor of Informatics Engineering | Aug 2022 - Present

Lampung Selatan, Indonesia

- GPA: 3.42/4.00 | Active 8th-semester student
- Relevant focus: project management basics, data analysis, software development, machine learning, and web development.

RELEVANT EXPERIENCE

Cohort - Machine Learning | Coding Camp powered by DBS Foundation | Feb 2025 - Present

Indonesia

- Selected for an intensive IT scholarship program by DBS Foundation in collaboration with Dicoding, completing the Machine Learning Engineer learning path.
- Completed structured learning in Python programming, data analysis, data processing, machine learning, deep learning fundamentals, and project-based application.
- Strengthened collaboration, time management, problem solving, English communication, financial literacy, and career readiness through program activities.
- Prepared project submissions and learning documentation to support data-driven and technology-focused project outcomes.

Mentee - Hacker Front End | Telkom Indonesia, Digistar Class 2024 | Jul 2024 - Sep 2024

Indonesia

- Participated in an intensive front-end development program focused on responsive and user-centered web applications using ReactJS and modern front-end technologies.
- Worked on front-end projects by developing interactive features, improving user experience, and collaborating with peers to complete program deliverables.
- Improved communication, collaboration, problem-solving, and adaptability in a fast-paced technology learning environment.

Coordinator - Teaching Assistant for Basic Physics Lab | Institut Teknologi Sumatera | 2024 - Present

Lampung Selatan, Indonesia

- Coordinated teaching assistant team activities to ensure lab schedules, task allocation, and practical sessions ran smoothly.
- Collaborated with lecturers, lab staff, and other coordinators to monitor practical needs and resolve operational issues during lab activities.
- Managed grade recap, student evaluation, and academic documentation to support reporting and assessment processes.
- Helped ensure lab activities were delivered on time, aligned with standards, and supported by clear communication with students and staff.

Teaching Assistant - Computer, Software, Mathematics, and Informatics Courses | Institut Teknologi Sumatera | 2023 - 2024

Lampung Selatan, Indonesia

- Assisted courses including Introduction to Computer and Software, Matrix and Vector Space, Formal Language and Automata Theory, Introduction to Informatics Engineering, and Islamic Studies and Ethics.
- Facilitated discussions, guided students in practical tasks, supported technical troubleshooting, and helped lecturers with assessments and feedback.
- Prepared and managed practical materials, supported Microsoft Word/Excel learning activities, reviewed assignments, and communicated progress to teaching teams.

PROJECTS

SIMAMANG - Monitoring Management System for Dinas Sosial Kota Bandar Lampung / *Web-based Information System*

- Contributed to a web-based monitoring management system designed to support government service and data management needs.
- Supported feature implementation, information presentation, and functional consistency to improve usability for stakeholders.
- Link: simamang.bandarlampungkota.go.id

Casheye - Speech Detection Application for Visually Impaired Users / *Coding Camp Project*

- Developed a technology project focused on accessibility support for visually impaired users through speech detection functionality.
- Applied project-based learning by coordinating development tasks, preparing documentation, and aligning features with user needs.

LEADERSHIP AND ORGANIZATIONS

HMIF Kabinet Akselerasi / *Expert Staff, Member Development Division* | 2025

- Supported member development initiatives in the Informatics Student Association, strengthening program coordination and team communication.

HMIF Kabinet Sinergi / *Staff, Training and Professional Development Division* | 2024

- Contributed to student development and professional training programs through team-based planning and execution.

First Gathering Informatika 23 / *Head of Medical Subdivision* | 2023

- Led medical subdivision coordination to support event readiness and participant safety during student activities.

SKILLS

Project / Administrative: Project coordination, progress tracking, project documentation, reporting, scheduling support, stakeholder communication, task monitoring, meeting notes, evaluation recap.

Tools: Microsoft Excel, Microsoft Word, Microsoft PowerPoint, Google Workspace, Git, GitHub.

Technical: Data analysis, Python, SQL, ReactJS, JavaScript, PHP, HTML, CSS, C++.

Soft Skills: Communication, teamwork, time management, public speaking, problem solving, adaptability, attention to detail.
